

Prof Jonathan Calof

A professor of International Business and Strategy at the Telfer School of Management at the University of Ottawa, and co-director of the Telfers Business analytics-and Performance management area, Prof Calof combines research and consulting in competitive intelligence, technical foresight and business analytics to help organizations develop key insights on their competitive environment.

Jonathan has given over 1000 speeches, seminars and keynote addresses around the world on intelligence, foresight and analytics and has helped several companies and government agencies around the world enhance their capabilities on these areas. In recognition of his contribution to making fact based decision making a reality, Jonathan has been given several honours including Frost and Sullivan's life time achievement award in competitive intelligence; Fellow award from the Society of Competitive Intelligence Professionals; Honorary Professor at Yunnan Normal University in China; Appointment to the international advisory board for the Russian Foresight Committee of HSE; Honorary member of the Russian Society of Competitive Intelligence Professional; Board of advisors for the Centre en Intelligence Economique et Management Stratégique(CIE'MS/Center for Competitive Intelligence and Strategic Management in Morocco.

Interest in his work has also resulted in several interviews on radio and in print around the world and has been featured in national publications as Forbes, Business Week, CIO Magazine, Financial Times, The National Post, Globe and Mail, Canadian Business, and others.

He is a prolific author with over 150 publications to his credit. As well, Jonathan is the author and co-editor of several books on competitive intelligence including co-editor of the Competitive Intelligence Foundation's Conference and Trade Show Intelligence book. He also pens a column on event intelligence for competitive intelligence magazine and is executive editor for Frontlin Safety and Security. In addition to his involvement in the consulting and academic world, Prof Calof is also a director with, RoboCoder, a Canadian software company and Success Nexus, a Malaysian biofuel company.
